# 13 WAYS NOT TO BURN YOUR HOME!

**13** is an unlucky number, but any way to burn your home is bad. The 13 fire causes pictured here appear most often in reports of fires that destroy homes by the hundred thousand and result in thousands of deaths from burns and smoke suffocation every year. These and other fire causes can all be avoided by forethought and simple precautions.

Have your smoke **BEFORE** you go to bed.

Send clothes to the cleaners or use non-explosive cleaning fluids.

Use only fire-safe roofing.

Burn oily rags in the incinerator at once, or keep them in covered metal cans.

Keep matches away from small children.

Replace frayed electric cords and repair defective electrical equipment.

Keep a screen in front of your fireplace, and watch the fire.

# DANNY BLAZE

Use only metal barrels for ashes and rubbish.

Use paper and kindling—never kerosene.

An approved fire extinguisher will provide a "knock-out" blow for small fires.

Keep stoves, furnaces and smokepipes in good repair.

Keep portable stoves clean and set them well away from combustibles.

Burn rubbish only in an incinerator.

Somewhere in North America a needless fire breaks out every two seconds—right around the clock.

# THE DELAYED MOVE

It was two o'clock. The streets of Little Creek were filled with people who were finishing their shopping before the holiday weekend. In firehouse No. 2 Bill Buxley and Jim Farrow were putting away the rags they had just used to polish engine #6. Upstairs over O'Malley's furniture store Mrs. Johnson was just finishing her afternoon wash. "I think I will stop for a moment and have a cigarette", she thought to herself. She placed her iron on the end of the board and stepped across the hall to tell the latest gossip to Mrs. Baker.

"Fran!!" she called out loud enough to be heard over the rumble of a trailer truck that had just passed under the window, "Who do you think I met while I was out shopping this morning?"

"I'll bet it was your friend Carol," came the reply from behind the closed door. "Just a moment and I'll let you in. It's too hot to keep on working — come on in and we can have some iced tea."

Across the street Mrs. Alderman was sitting in her apartment, looking out the window at all the activity in the street below. My, she thought to herself, all day long these people rush back and forth, even in this heat. I wonder what they would do if something really happened that would make it necessary for them to really be in a hurry?

A few minutes passed and Mrs. Alderman was just about to get up and finish her cleaning when she glanced across the street to the building on the other side. "Funny", she thought to herself, "I was sure for a moment I saw smoke coming out of that window. Mrs. Baker must have burned her dinner again. I never knew a woman who was such a poor cook. Just the other day she was telling me that she had ruined a whole turkey by leaving it in the oven while she went out shopping".

Once again Mrs. Alderman looked out this window. This time a small but steady stream of smoke was seeping out of the window. "I better walk over there and see what the trouble is", she thought to herself as she descended the stairs and crossed the street. If this is anything like last week she is probably out again. I wonder what she has ruined this time.

The hallway was only dimly lit by the light coming from the window at the top of the stairs. The faint smell of smoke could already be detected in the air.

You would think that someone would have smelled the smoke, she thought as she reached the door to Mrs. Johnson's flat. After rapping on the door several times and receiving no answer, she placed her hand on the door nob

to see if it was unlocked. The mob turned and the door pushed open. A blast of hot smoke rushed forth — sending its choking fumes deep into her lungs!!

Bolting around and running down the hall she screamed, "FIRE, FIRE" as loud as her high pitched voice could yell.

All down the hall doors flew open, heads popped out of windows, and people rushed out to see what all the screaming was about. Fortunately someone had the presence of mind to call the fire department!

"Your move, Bill. Someday I am going to be able to beat you at checkers at least 50% of the time." This was how Bill Buxley and Jim Farrow passed some of the long hours of waiting that are so common in the life of a fireman.

"I sure hope nothing catches on fire today," mused Jim as he tried to figure some way of preventing a double jump which seemed inevitable. "It's so hot today that it is a wonder that everything in town doesn't catch on fire."

They should have known better than to wish that they would have no work during the day, for no sooner had Jim finished this statement, than the old brass bell at the rear of the firehouse clanged out its command for all to man the engines and rush off to battle another blaze.

Bill and Jim jumped on the back of the big pumper #6, as she shot out the front of the house and on to Main Street. The scream of the siren pierced their ears. Down the main street roared the engines! On the corner the traffic cop halted traffic to let the mighty engines pass. Mothers held on to their children, lest they accidentally run into the street and be hit by the mighty trucks as they roared by!

A large crowd had already gathered in front of O'Malley's furniture store. Mrs. Baker and Mrs. Johnson stood among a group of people, who unlike the rest of the yelling and pushing crowd, stood silently watching the bellowing black and white smoke churn out of the second story windows of their house.

"Buxley and Farrow"! bellowed the voice of the lieutenant over the noise of the crowd, "Take the portable extinguishers and see what you can do to check it while the hoses are being connected up."

Up the stairs they dashed, carrying the heavy extinguishers. Smoke was pouring out the door of the Johnson flat. Crawling on the floor along the wall they spotted the remains of a basket of clothes and a burning rug. They tripped the release on the extinguishers and bathed the area with the fire snuffing foam. In a few moments the smoke began to clear — the fire was out!!

"Don't need the hose lieutenant," shouted Bill out of the window. "Not much damage, just some burned clothes, a ruined iron and a charred rug."

Slowly the pumper and the ladder truck pulled away from the curb. Now the clang of the bells and the yells of delight made by the children and dogs who were following the engines up the street blended into a melodic tone.

Back at the engine house Bill and Jim were once again peering at each other over the checker board.

"You know what? asked Jim, just as the voice of the lieutenant echoed in their ears; "I'll bet you anything he's going to make us polish those engines all over again!"

**Tired of Being Ashamed of Your Build?**

# LET ME GIVE YOU A NEW HE-MAN BODY!

*Charles Atlas*

Awarded the title of "The World's Most Perfectly Developed Man" in an international contest.

**My Secret Method Has Worked for Thousands No Matter How Skinny or Flabby They Were—Now, Why Not Let It Work For You?**

**HERE'S WHAT I'LL PROVE 15 MINUTES A DAY CAN DO FOR YOU**

**I** DON'T CARE how old or young you are, or how ashamed of your present physical condition you may be. If you can simply raise your arm and flex it I can add **SOLID MUSCLE** to your biceps—yes, on each arm—in double-quick time! *Only 15 minutes a day—right in your own home—is all the time I ask of you! And there's no cost if I fail.*

I can broaden your shoulders, strengthen your back, develop your whole muscular system **INSIDE and OUTSIDE!** I can add inches to your chest, give you a vise-like grip, make those legs of yours lithe and powerful. I can shoot new strength into your old backbone, exercise those inner organs, help you cram your body so full of pep, vigor and red-blooded vitality that you won't feel there's even "standing room" left for weakness and that lazy feeling! Before I get through with you I'll have your whole frame "measured" to a nice, new beautiful suit of muscles!

## WHAT'S MY SECRET?

**"DYNAMIC TENSION!"** That's the ticket! The identical natural method that I myself developed to change my body from the scrawny skinny chested weakling I was at 17 to my present superman physique! Thousands of other fellows are becoming marvelous physical specimens—my way. I give you no gadgets or contraptions to fool with. When you have learned to develop your strength through "Dynamic Tension" you can laugh at artificial muscle-makers. You simply utilize the **DORMANT** muscle-power in your own God-given body—watch it increase and multiply double-quick into real solid **LIVE MUSCLE.**
